MYTHS VS. REALITY

Let's separate common myths from the truth about entrepreneurship.

✗ MYTH	✓ REALITY
 Entrepreneurs are born.	Entrepreneurial skills can be learned. Anyone can develop an entrepreneurial mindset with the right attitude, learning and practice.
 You need a lot of money to start.	Many successful businesses started with limited capital. Great ideas, resourcefulness and execution matter more than the size of your bank balance.
 Entrepreneurs take huge risks.	Successful entrepreneurs manage calculated risks. They gather information, evaluate options and make informed decisions.
 Failure means the end.	Failure is a valuable learning experience. Every setback teaches a lesson that brings you closer to success.
 You need a revolutionary idea to succeed.	Many successful businesses improve existing solutions. Solving real problems better, faster or cheaper creates great value.

The truth is: Entrepreneurship is about identifying opportunities, solving problems, creating value and making a positive impact.

With the right mindset, you can build the future you imagine.

WHY ENTREPRENEURSHIP MATTERS

Creates Employment

Entrepreneurs build businesses that create jobs and support livelihoods.

Drives Innovation

New ideas and technologies improve products, services and processes.

Solves Social Problems

Entrepreneurs create solutions to challenges in education, health, environment and more.

Contributes to Economic Growth

Improves Quality of Life

Entrepreneurship brings better products, services and opportunities to society.

Entrepreneurs don't wait for opportunities— they create them.

CHARACTERISTICS OF SUCCESSFUL ENTREPRENEURS

Entrepreneurial success is not about luck. It is about **mindset, habits and actions**.

WHAT MAKES THEM DIFFERENT?

Successful entrepreneurs see possibilities where others see problems. They take initiative, keep learning and create value for others.

“

It's not about having all the skills. It's about having the right mindset to learn, adapt and keep going.

”

GROWTH MINDSET vs. FIXED MINDSET

Your mindset shapes your actions, and your actions **shape your future**.

A growth mindset believes that abilities and intelligence can be developed through effort, learning and persistence.

FIXED MINDSET Believes abilities are static		GROWTH MINDSET Believes abilities can be developed
I can't do this.		I can't do this... yet.

Answer the following:

- What was the challenge?
- How did you react at that time?
- If you had a growth mindset, what would you do differently?
- What did you learn from that experience?

Write your answers in your workbook and be ready to share with the group.

PAGE 5 THE POWER OF RESILIENCE

Resilience is the ability to *bounce back, learn and keep moving forward*.

Entrepreneurship is a journey filled with uncertainty. Setbacks are normal. What matters is *how you respond to them*.

EVERY ENTREPRENEUR FACES:

Rejection

Not every idea, product or pitch will be accepted.

Financial setbacks

Cash flow problems, lack of funding or unexpected expenses.

Customer complaints

Not every customer will be happy.

Competition

Others may do it better or faster.

Unexpected failures

Things may not go as planned.

Resilience is not about never falling.
It is about *getting up every time you fall*.

MINI CASE STUDY

THE STORY OF A BAKERY OWNER

A small bakery in a crowded neighborhood started losing customers when a new, bigger bakery opened nearby. Sales dropped by 40%. The owner felt demotivated. Instead of giving up, she:

ANALYZED THE PROBLEM

She spoke to customers and understood their changing needs.

INNOVATED

She introduced new products – healthy snacks, customized birthday cakes and combo offers.

WENT DIGITAL

She started taking orders on WhatsApp and Instagram and offered home delivery.

BUILT RELATIONSHIPS

She engaged with the local community and offered loyalty discounts.

Within a year, her revenue not only recovered but grew 60% more than before.

“

*Success is not final, failure is not fatal:
It is the courage to continue that counts.*

– Winston Churchill

HOW TO BUILD RESILIENCE

Stay Positive

Focus on solutions, not problems.

Learn Continuously

Every setback teaches you something valuable.

Manage Stress

Take care of your physical and mental well-being.

Seek Support

Talk to mentors, friends and other entrepreneurs.

Celebrate Small Wins

Recognize your progress, no matter how small.

REFLECTION ACTIVITY

Think of a time when you faced a challenge.

Answer the following in your workbook:

- What happened?
- How did you feel?
- What did you do?
- What did you learn?
- How did it make you stronger?

Share your learning with your partner or group.

**Setbacks are temporary, but the lessons you learn are permanent.
Resilient entrepreneurs use setbacks as stepping stones to success.**

CALCULATED RISK TAKING

Entrepreneurs do not gamble. They take **calculated risks**.

WHAT IS CALCULATED RISK?

It is the ability to move forward after carefully evaluating the possible outcomes and preparing for the uncertainties.

WHY TAKE RISKS?

- To discover opportunities
- To create value
- To grow and innovate
- To stay ahead of the competition

“

A ship is safe in the harbor, but that is not what ships are built for.

– John A. Shedd

RISK vs RECKLESSNESS

RECKLESSNESS (Avoid)

- ⚠️ Acting without thinking.
- 🎲 Relying on luck.
- 👁️ Ignoring facts and data.
- 🏃 No plan B.
- ⚠️ High probability of failure.

CALCULATED RISK (Embrace)

- 🔍 Analyzing before acting.
- 📊 Based on research and information.
- 👁️ Understanding the facts.
- 📋 Having a plan and backup.
- 🏆 Higher probability of success.

ENTREPRENEUR'S CHECKLIST Before Taking a Risk

- 👥 Do I understand the market need?
- 📈 Have I done enough research?
- ₹ Is it financially feasible?
- 👤 Who are my competitors?
- ⚙️ What are the potential challenges?
- 🛡️ What is my plan B?
- 🎯 What is the potential reward?

RISK ASSESSMENT EXERCISE

Take one business idea of yours and identify the risks. Rate them from 1 (Low Risk) to 5 (High Risk) and suggest ways to reduce them.

Type of Risk	Risk Level (1 – 5)	How can I reduce this risk?
👥 Market Risk (Will customers buy?)		
₹ Financial Risk (Can I manage the money?)		
⚙️ Operational Risk (Can I deliver the product/service?)		
💻 Technology Risk (Will technology work?)		
⚖️ Legal Risk (Any legal or regulatory issues?)		

KEY INSIGHT

The goal is not to eliminate risk, but to understand it, prepare for it, and turn it into an opportunity.

Great entrepreneurs are not risk takers. **They are risk managers.**

Think. Plan. Prepare. Then take the leap.
That is the entrepreneurial way!

CREATIVITY & INNOVATION

Ideas are easy. Implementation is hard. Innovation happens when **ideas** create **value**.

Creativity is

generating new ideas and possibilities.

Innovation is

turning ideas into useful solutions that create value.

“

You can't use up creativity.

*The more you use,
the more you have.*

– Maya Angelou

”

WAYS TO DEVELOP CREATIVITY

OBSERVE

Look around you. Great ideas come from observing everyday problems and opportunities.

ASK “WHY?”

Question the status quo. Dig deeper to understand the root cause of problems.

CHALLENGE ASSUMPTIONS

Don't accept things as they are. Think, “What if we did it differently?”

LEARN FROM DIFFERENT AREAS

Read, travel, talk to people from other industries. Cross-pollination sparks new ideas.

EXPERIMENT

Try new things. Small experiments today can lead to big breakthroughs tomorrow.

USE AI & DIGITAL TOOLS

Leverage AI tools for brainstorming, market insights, trend spotting and idea generation.

CREATIVITY TECHNIQUES YOU CAN USE

BRAINSTORMING

Generate as many ideas as possible.
No judgment. Quantity first, quality later.

SCAMPER METHOD

Substitute, Combine, Adapt, Modify,
Put to another use, Eliminate, Reverse.

ROLE STORMING

Think from different perspectives – a customer,
a competitor, an investor, a child, etc.

MIND MAPPING

Visualize connections between ideas
and identify new possibilities.

ANALOGY THINKING

Compare your problem with something
unrelated. Great ideas often come from
unlikely connections.

ACTIVITY: FIND 5 PROBLEMS, CREATE 5 IDEAS

Identify five problems in your college, neighborhood,
or daily life and write one business idea for each.

	Problem I Observe	Business Idea I Can Create
1		
2		
3		
4		
5

Keep observing, questioning and experimenting.
Tomorrow's solutions are hidden in today's problems.

The world doesn't need more ordinary businesses.
It needs more creative and innovative entrepreneurs like you.

ENTREPRENEURIAL HABITS

Mindset is built daily. **Good habits** lead to **great businesses**.
