

FINANCIAL PLANNING:

Turning Ideas into Profitable Businesses

“

Revenue is vanity.
Profit is sanity.
Cash flow is reality.

”

LEARNING OBJECTIVES

- ✓ Estimate startup costs
- ✓ Price products and services
- ✓ Calculate profits
- Prepare financial projections
- Understand cash flow
- Estimate funding needs

“

A business without financial planning
is a dream without a roadmap.

”

UNDERSTANDING STARTUP COSTS

Every business needs money to start and run. Know your costs before you launch.

TWO TYPES OF COSTS

ONE-TIME COSTS

Registration & Legal

Licenses, permits, registrations

Equipment

Machines, tools, technology

Furniture & Fixtures

Office setup, interiors

Website & Technology

Domain, website, software

Branding & Marketing

Logo, branding, initial promotions

Initial Inventory

Raw materials, stock

RECURRING COSTS

Rent

Office / shop / warehouse

Salaries

Team, staff, consultants

Internet & Communication

Phone, internet, communication tools

Marketing & Promotion

Ads, social media, campaigns

Utilities

Electricity, water, maintenance

Software & Subscriptions

Tools, apps, subscriptions

ACTIVITY

Estimate your startup cost.

List all one-time and recurring costs for your business idea.

KEY TAKEAWAY

Knowing your costs gives you clarity, control and confidence.

REVENUE STREAMS

How will money come in?

Multiple income streams create a strong business.

“Don't depend on one stream.
Diversify to survive, scale and succeed.”

ACTIVITY

Identify and list all the possible revenue streams for your business.

MULTIPLE STREAMS. ONE BUSINESS.

EXAMPLE: MENTORME

Career Assessments
Fee per student

Training Programs
Certificate & skill courses

School Programs
STEM, Robotics, Career Guidance

Corporate Workshops
Custom training for companies

Partnerships & Referrals
Collaborations & tie-ups

KEY TAKEAWAY

More streams = More stability
More value = More growth

PRICING STRATEGY

The right price attracts customers, covers your costs and delivers profit.

“ Price is what you pay.
Value is what you get.
Profit is what you keep. ”

ACTIVITY

Calculate the selling price of your product or service using different pricing methods and choose the best one.

CHOOSE YOUR PRICING APPROACH

COST PLUS

Add a margin on top of your total cost.

COMPETITION BASED

Price based on what competitors are charging.

VALUE BASED

Price based on the value you deliver.

PREMIUM

Charge more for high quality and exclusivity.

PENETRATION

Start with a low price to attract customers.

FREEMIUM

Basic free, premium features at a price.

SUBSCRIPTION

Recurring payments for ongoing value.

EXAMPLE

Homemade Protein Bar

Total Cost per bar ₹ 20

Desired Profit Margin 40% ₹ 8

Selling Price ₹ 28

Perceived Value to Customer High ✓

Result
Good margin + Happy customer
= Sustainable business!

THE PRICING BALANCE

SELLING PRICE

=

TOTAL COST
(Fixed + Variable)

+

PROFIT MARGIN
(In Rupees or %)

KEY TAKEAWAY

The best price is the one that creates value for customers and profit for your business.

PROFIT & LOSS STATEMENT

A simple view of how much money your business earns and keeps over a period of time.

“ Revenue is what you make.
 Profit is what you keep.
 Manage costs.
 Maximize profit. ”

ACTIVITY

Prepare a Profit & Loss estimate for your business for the first year.

Track Performance

Know how your business is doing.

Control Costs

Reduce unnecessary expenses.

Increase Profit

Improve efficiency, grow faster.

Create Value

Build a sustainable and profitable business.

THE SIMPLE FORMULA

REVENUE

Money earned from sales

COST OF GOODS SOLD

Direct costs of delivering product or service

OPERATING EXPENSES

Running the business

NET PROFIT

Your earnings after all costs

PROFIT & LOSS STATEMENT (YEAR 1)		AMOUNT (₹)
1	REVENUE (Sales / Income)	10,00,000
2	COST OF GOODS SOLD (Direct Costs)	(3,00,000)
	GROSS PROFIT	7,00,000
3	OPERATING EXPENSES	(4,50,000)
	- Salaries (2,00,000) - Rent (1,20,000) - Marketing (80,000) - Utilities & Others (50,000)	
	NET PROFIT	2,50,000

EXAMPLE: MENTORME

Training Program Business

Revenue

Fee from Programs

₹ 10,00,000

Cost of Goods Sold

Study Material, Facilitator Cost, Platform Cost

₹ 3,00,000

Operating Expenses

Salaries, Rent, Marketing, Utilities, Admin

₹ 4,50,000

Net Profit

Money earned after all expenses

₹ 2,50,000

Net Profit Margin

2,50,000 / 10,00,000 = 25%

25%

KEY TAKEAWAY

Focus on growing revenue, controlling expenses and improving profit margins.

CASH FLOW: THE LIFELINE OF YOUR BUSINESS

Profit is on paper,
Cash is in your bank.
Manage cash flow to
keep your business running
smoothly.

“ Profit is important,
but cash flow is
what keeps you alive. ”

ACTIVITY

Prepare a cash flow statement
for your business for one month.
List all cash inflows and outflows.

PROFIT ≠ CASH

You make
a sale

Customer
pays later

You still pay
expenses

Cash shortage
happens

RULE TO REMEMBER

Cash is the oxygen
of every business.
Run out of cash,
and the business
stops breathing.

EXAMPLE: ONE MONTH CASH FLOW

Total Cash Inflows ₹ 8,00,000

Sales Collections ₹ 7,00,000

Advance Received ₹ 1,00,000

Total Cash Outflows ₹ 6,50,000

Salaries ₹ 2,50,000

Rent & Utilities ₹ 1,00,000

Inventory Purchase ₹ 2,00,000

Marketing ₹ 50,000

Others ₹ 50,000

Net Cash Balance ₹ 1,50,000 ✓

CASH FLOW MANAGEMENT TIPS

Invoice Early,
Follow Up
Regularly

Control
Expenses
Smartly

Maintain Cash
Reserve for
Emergencies

Forecast Cash
Flow Every
Month

KEY TAKEAWAY

Cash flow management ensures your
business can meet its obligations today
and grow tomorrow.

BREAK-EVEN ANALYSIS

The point where total revenue equals total costs. Beyond this point, your business makes profit!

“Find your break-even point. Cross it, and you start winning.”

ACTIVITY

Calculate the break-even point for your business. How many units do you need to sell to break even?

THE FORMULA

$$\text{BREAK-EVEN UNITS} = \frac{\text{FIXED COSTS}}{\text{CONTRIBUTION PER UNIT}}$$

(Selling Price – Variable Cost per Unit)

Fixed Costs:

Costs that don't change with sales volume.

Contribution:

Amount available to cover fixed costs and generate profit.

THE BREAK-EVEN GRAPH

EXAMPLE

	Fixed Costs (per month)	₹ 2,00,000
	Selling Price per Unit	₹ 500
	Variable Cost per Unit	₹ 300

$$\text{Contribution per Unit} = 500 - 300 = ₹ 200$$

$$\text{Break-even Units} = \frac{2,00,000}{200} = 1,000 \text{ units}$$

After selling 1,000 units, every additional unit contributes ₹ 200 towards profit.

KEY TAKEAWAY

Know your break-even point. It helps you set targets, plan better and ensure long-term sustainability.

Cover your costs

Reach break-even

Grow into profit

FINANCIAL PROJECTIONS

Financial projections help you see the future of your business and plan for growth.

“Don't predict the future, prepare for it.
Be optimistic, but stay realistic.”

ACTIVITY

Prepare a 3-year financial projection for your business.

- Estimate Revenue
- Estimate Expenses
- Calculate Profit
- Estimate Customers & Growth Rate

PLAN TODAY, GROW TOMORROW

3-YEAR FINANCIAL PROJECTIONS (EXAMPLE)

PARTICULARS	YEAR 1 (₹)	YEAR 2 (₹)	YEAR 3 (₹)
 REVENUE	10,00,000	18,00,000	30,00,000
 TOTAL EXPENSES	7,50,000	12,50,000	20,00,000
 NET PROFIT	2,50,000	5,50,000	10,00,000
 NET PROFIT MARGIN	25%	30.6%	33.3%
 CUSTOMERS	500	1,000	1,800
 GROWTH RATE	—	80%	67%

KEY ASSUMPTIONS

Increase in customers through marketing and partnerships

Average order value and pricing remain competitive

Controllable operating expenses with scale benefits

Reinvestment in growth and technology

GOLDEN RULES

- ✓ Base your numbers on research and reality.
- ✓ Review and update your projections regularly.
- ✓ Plan for best case, base case and worst case.
- ✓ Focus on improving revenue and controlling costs.

YOUR ROADMAP TO GROWTH

KEY TAKEAWAY

Financial projections turn your vision into numbers and your numbers into a growth plan.

Plan well. Measure. Improve. Grow!

FUNDING REQUIREMENT

Every business needs capital to start, grow and scale. Plan your funding requirement clearly and use it to build investor confidence.

“If you fail to plan your funding, you plan to fail.”

WHY DO YOU NEED FUNDING?

FUNDING ROADMAP

EXAMPLE: FUNDING REQUIREMENT

PURPOSE	AMOUNT (₹)
Startup Setup & Infrastructure	3,00,000
Working Capital (6 Months)	4,00,000
Technology & Tools	2,00,000
Marketing & Branding	1,50,000
Hiring & Training	2,00,000
Initial Inventory	2,50,000
Contingency (10%)	1,50,000
TOTAL FUNDING REQUIRED	16,50,000

ACTIVITY

- List all funding needs for your business.
- Estimate the amount for each purpose.
- Calculate the total funding required.
- Prepare a short note: why you need this funding and how it will be used.

WHAT INVESTORS LOOK FOR

Clear Use of Funds

Strong Business Potential

Capable Team

Realistic Financial Projections

Risk Awareness & Mitigation

KEY TAKEAWAY

Funding is the fuel that powers your vision. Plan it well, justify it clearly, and use it wisely to build a sustainable and scalable business.
