1. YOUR CAREER PROFILE

Zainab, your assessment reveals a genuinely distinctive and exciting profile anchored by your single strongest technical quality — exceptional Mechanical aptitude (8/10), one of the highest in this cohort. This strength, combined with elite Verbal skills (7/10), solid Logical reasoning (5/10), and Artistic interest (2.00/5), points unmistakably toward the design and built-environment careers at the centre of your recommendations. Your recommended careers — Journalist, Advertising Professional, Architect, Design Engineering, and Landscape Designer — span two related clusters: creative-communication (journalism and advertising) and creative-technical (architecture, design engineering, landscape design). Both clusters are directly powered by your Mechanical and Verbal strengths.

Your Real Strengths

Strength	Score	What This Means for Your Career
Mechanical Skills: 8.00/10	8.00/10	Exceptional — among the highest in this cohort and directly relevant to architecture (spatial systems and structural understanding), design engineering (mechanical design and product development), landscape design (site grading, drainage, and construction systems), advertising (production and technical media), and the spatial intelligence dimensions of journalism.
Verbal Skills: 7.00/10	7.00/10	Strong — directly powers journalism (writing, broadcasting, and interviewing), advertising (copywriting and campaign messaging), architecture (client communication and planning documentation), and the professional communication demands of design engineering and landscape design project management.
Logical Skills: 5.00/10	5.00/10	Developing reasoning ability — supports architecture (structural analysis logic), design engineering (problem-solving frameworks), landscape design (site planning), and the analytical writing dimensions of journalism and advertising.
Exploration: 3.00/5	3.00/5	Moderate intellectual curiosity — drives continuous learning in rapidly evolving fields: digital journalism, programmatic advertising, sustainable architecture, green landscape design, and design engineering innovation.
Emotional Intelligence: 3.25/5	3.25/5	Developing — supports journalism (source relationships), advertising (audience understanding), architecture and landscape design (client relationship management), and the stakeholder communication of design engineering projects.

Areas to Develop — The Most Critical Priority

Area	Score	Development Action — Start Today
Numerical Skills: 3.00/10	3.00/10	Most critical gap — and the most urgent action in this report. Architecture and Design Engineering both require Mathematics at the PCM level for JEE, NATA, and B.Tech entrance. Begin 30 minutes of structured Mathematics practice every single day from today. This is non-negotiable and non-deferrable. Even 30 minutes daily, maintained without exception through Grade 9 and 10, will produce measurable improvement before stream selection.
Conventional: 0.00/5	0.00/5	Build systematic habits through organised project portfolios, sketchbook maintenance, and structured daily study routines. Architecture studio work, design engineering documentation, and journalism editorial processes all require disciplined organisation. Begin from Grade 9.
Engagement: 2.75/5	2.75/5	Build sustained focus through progressive creative projects and structured study commitments. Architecture requires 5 years of intensive studio work; design engineering requires sustained academic depth. Build engagement through personally meaningful creative projects from Grade 9.

2. YOUR CAREER INTERESTS & MOTIVATIONS

Your assessment explored different types of career interests, helping identify roles where you will feel naturally engaged and motivated.

Interest Type	Your Score	Career Implications
Artistic (Creative)	2.00/5	Primary driver — creative orientation confirms alignment with architecture (spatial and aesthetic design), advertising (visual communication and brand creativity), journalism (visual and narrative storytelling), landscape design (environmental aesthetics), and design engineering (product design and user experience).

3. YOUR CAREER PATHWAYS — MATCHED TO YOUR PROFILE

Based on your Individuality Profile, Passion Exploration, and Skill Proficiency, the following careers have been identified as your best matches.

EXCELLENT FIT Careers (Top 5)

Career	Salary Range (India)	Why It Fits You
Journalist (Print / Electronic / Fashion / Sports / Political / Crime / Finance)	4L to 25L+	Your Verbal skills (7/10), Artistic interest (2.00/5), Exploration (3.00/5), and Mechanical aptitude (supporting digital media production tools) align with journalism — reporting, investigating, writing, and broadcasting news and stories across specialisations. Journalism is the most accessible career in Zainab's set from any stream, and Verbal excellence (7/10) is the single most important qualification. A career where Zainab's communication strength leads.
Advertising Professional	5L to 35L+	Your Verbal skills (7/10), Artistic interest (2.00/5), Mechanical aptitude (production tools), Emotional Intelligence (3.25/5), and developing Investigative curiosity align with advertising — creating campaigns, developing brand strategies, and crafting communication that connects products and services with audiences. India's growing digital advertising market creates strong demand for creative and strategic advertising professionals.
Architect	6L to 40L+	Your exceptional Mechanical aptitude (8/10 — the most critical technical skill for spatial design and structural understanding), Artistic interest (2.00/5), Verbal skills (7/10 for client communication and documentation), and Logical reasoning (5/10 — developing) align with architecture. Architecture is Zainab's most technically demanding recommendation — it requires Mathematics (NATA and B.Arch entrance), Physics, and sustained PCM academic performance. The Mechanical aptitude (8/10) is a genuine structural advantage for architecture; the Numerical gap must be addressed.
Design Engineering	6L to 35L+	Your Mechanical aptitude (8/10 — the highest technical skill for engineering design), Artistic interest (2.00/5 for product aesthetics), Logical reasoning (5/10 — developing), and Verbal skills (7/10) align with design engineering — creating and developing products, systems, and technologies that combine engineering functionality with design excellence. India's manufacturing and product development sectors create growing demand for design engineers.

Landscape Designer	4L to 22L+	Your Mechanical aptitude (8/10 for site grading, drainage, and construction systems), Artistic interest (2.00/5 for aesthetic environment design), Exploration (3.00/5), and Realistic interest (1.00/5 for fieldwork) align with landscape design — planning and designing outdoor spaces including parks, gardens, campuses, and urban public spaces. A career that beautifully combines Zainab's spatial-mechanical intelligence with creative aesthetic design.
--------------------	------------	---

GOOD FIT Careers (Top 5)

Career	Salary Range (India)	Why It Fits You
Interior Designer	4L to 25L+	Closely related to Architecture and Landscape Design — leverages Mechanical aptitude (8/10 for spatial and construction systems), Artistic interest, and Verbal skills for the interior environment design career that is accessible from any stream and does not require Mathematics entrance.
Urban Planner / Town Planner	5L to 25L+	Builds on Architecture and Landscape Design for city and community planning — leverages Mechanical aptitude, Logical reasoning, and Exploration for the systems-thinking dimensions of urban environment design.
Creative Director / Art Director (Advertising)	8L to 50L+	Senior progression within advertising — leverages Artistic interest, Mechanical aptitude (for production), and Verbal skills for the most creative and strategically senior advertising career roles.
Digital Journalist / Content Creator / Multimedia Journalist	4L to 25L+	Builds on journalism for digital platforms — leverages Verbal excellence (7/10), Mechanical aptitude (for digital tools and video production), and Artistic interest for content creation and digital media careers.
Product Designer / Industrial Designer	5L to 30L+	Specialises within design engineering for product aesthetics and user experience — leverages Mechanical aptitude (8/10), Artistic interest, and developing Logical reasoning for the most design-intensive engineering career.

4. YOUR ACADEMIC ROADMAP

Recommended Stream for Grade 11-12: Science with PCM

Both subject recommendations are PCM — confirming Science with PCM as the stream direction. PCM is required for B.Arch (Architecture) — Physics and Mathematics are mandatory; NATA and JEE Paper 2 test Mathematics. PCM is required for B.Tech Design Engineering. PCM with Physics and Mathematics also supports Landscape Design (B.Sc. Landscape Architecture) and provides the strongest academic foundation for Advertising and Journalism communication careers. The critical and non-negotiable requirement for PCM success is that the Numerical aptitude (currently 3/10) must be improved significantly through Grade 9 and 10 daily Mathematics practice. Without this improvement, PCM stream performance will be academically challenging. The next two years are Zainab's window. Begin today.

Stage	Recommendation
Grade 11-12 Stream	Science with PCM — Physics, Chemistry, Mathematics (Primary; required for Architecture and Design Engineering; strongly recommended for all five careers)
Most Critical Requirement	30 minutes of structured Mathematics practice every single day from today through Grade 10. This is the non-negotiable pre-condition for PCM stream success. Architecture (NATA) and Design Engineering (JEE) both require strong Mathematics performance.
Alternative Stream	Arts and Humanities with Fine Arts — if Architecture and Design Engineering are definitively not the primary priorities and Journalism/Advertising is the clear first choice. However, PCM is still the stronger recommendation for the breadth of the career set.
Portfolio Priority	Begin a design sketchbook or architecture model-making practice from Grade 9. NATA (National Aptitude Test in Architecture) tests drawing, spatial ability, and design observation — daily sketchbook practice is the most direct preparation.
Grade 9-10 Priority	Non-negotiable: (1) 30 minutes Mathematics daily — the most critical single action in this report; (2) Begin sketchbook/design practice daily (10 minutes); (3) 20 minutes English reading for Verbal development and journalism/advertising writing. These three habits cover all five career pathways.
Competitive Exam Target	NATA (National Aptitude Test in Architecture) for B.Arch; JEE Paper 2 (for B.Arch at NIT / SPA); JEE Main for B.Tech Design Engineering; NID DAT (for B.Des Product / Industrial Design); CUET / individual college entrances for BA Mass Communication / Journalism

5. EDUCATION PATHWAYS (UG to PG)

Undergraduate (UG) Options

Programme	Duration	Career Leads To
B.Arch (Bachelor of Architecture — NATA / JEE Paper 2)	5 Years	Architect, Landscape Architect, Urban Planner, Interior Architect, Sustainable Design Specialist
B.Tech Design Engineering / B.Des Industrial Design (NID / IIT / IIIT)	4 Years	Design Engineer, Product Designer, Industrial Designer, UX Engineer, Automotive Designer
B.Sc. / B.L.Arch (Landscape Architecture — SPA / CEPT)	4 Years	Landscape Designer, Urban Landscape Planner, Garden Designer, Environmental Designer
BA Mass Communication / Journalism (DU / Jamia / Symbiosis)	3 Years	Journalist, Multimedia Reporter, News Anchor, Content Creator, Digital Media Professional
BA Advertising / Mass Communication (MICA / Symbiosis / DU)	3-4 Years	Advertising Creative, Copywriter, Brand Strategist, Digital Marketing Manager, Account Executive

Postgraduate (PG) Options

PG Programme	Specialisation Focus
M.Arch (Master of Architecture — specialisation)	Sustainable architecture, urban design, architectural conservation, digital architecture, housing design
M.Des Product / Industrial Design (NID / IIT — CEED pathway)	Advanced product design, interaction design, UX engineering, design research, design leadership
M.L.Arch (Master of Landscape Architecture)	Advanced landscape systems, urban ecology, green infrastructure, climate-adaptive design
PGDM Communication (MICA) / MA Journalism (IIMC)	Advanced advertising and brand strategy (MICA); advanced journalism, broadcasting, and media leadership (IIMC)
MBA Design Management / MSc Urban Design	Design business leadership, brand management, urban planning strategy, sustainable development consulting

6. ENTRANCE EXAMS AND PREPARATION TIMELINE

Exam	For Admission To	Preparation Timeline
NATA (National Aptitude Test in Architecture) — highest priority for architecture	B.Arch at SPA, CEPT, Manipal, Chandigarh University, and hundreds of architecture colleges nationwide	Begin daily sketchbook and drawing practice from Grade 9 immediately. NATA tests three areas: Drawing and Composition, PCM Aptitude (Mathematics and Physics), and General Aptitude. Zainab's Mechanical spatial intelligence (8/10) is a structural NATA advantage — the drawing and spatial sections are directly powered by this aptitude.
JEE Paper 2 (for B.Arch at IIT / NIT / SPA Delhi)	B.Arch at India's premier architecture and planning schools	Begin JEE Mathematics preparation from Grade 11. Mathematics is the highest-weighted paper — the Numerical gap addressed through Grade 9-10 daily Maths practice is the direct investment in this examination.
NID DAT (National Institute of Design Aptitude Test)	B.Des Product Design / Industrial Design at NID campuses	Begin portfolio and drawing preparation from Grade 9. NID DAT tests creative ability, observation, and design thinking — daily sketchbook practice from Grade 9 is the most direct preparation.
CUET / Symbiosis SET / Individual College Entrances (for Journalism and Advertising)	BA Mass Communication / Journalism / Advertising at Central Universities and top private institutions	Prepare from Grade 11. Verbal ability and general awareness are the core focus — directly built through daily English reading and newspaper habits from Grade 9.
CEED (Common Entrance Exam for Design — IIT)	M.Des at IITs and IISc — for Design Engineering postgraduate track	Post-UG; begin awareness in UG Year 2. CEED tests design aptitude, visualisation, and analytical thinking — directly powered by Mechanical aptitude (8/10) and Artistic interest.

7. RECOMMENDED COLLEGES AND UNIVERSITIES

Top Colleges for Architecture, Design Engineering and Landscape Design

Institution	Location	Programme
IIT Kharagpur / IIT Roorkee (Architecture)	Kharagpur / Roorkee	B.Arch — India's most prestigious architecture programmes; JEE Paper 2 admission; exceptional built environment, urban design, and sustainable architecture research and placement.
School of Planning and Architecture (SPA)	New Delhi / Bhopal / Vijayawada	B.Arch / B.L.Arch (Landscape Architecture) — India's most specialised government architecture and planning institution; NATA/JEE Paper 2 admission; exceptional urban design and planning placement.
CEPT University	Ahmedabad	B.Arch / M.Arch — one of India's most respected architecture schools; strong design culture, sustainability focus, and industry placement.
NID (National Institute of Design)	Ahmedabad / Multiple Cities	B.Des Industrial Design / Product Design — India's most prestigious design institution; NID DAT admission; exceptional design engineering and product industry placement.
Manipal School of Architecture / MAHE / Chandigarh University	Manipal / Chandigarh	B.Arch / B.L.Arch — strong architecture and landscape design programmes with good studio culture and industry placement.

Top Colleges for Journalism and Advertising

Institution	Location	Programme
IIMC (Indian Institute of Mass Communication)	New Delhi / Multiple Cities	PG Diploma in Journalism / Advertising and Public Relations — India's most prestigious journalism institution; exceptional media industry placement.
MICA (Mudra Institute of Communications Ahmedabad)	Ahmedabad	PGDM-C (Post Graduate Diploma in Management — Communication) — India's most specialised advertising and brand management institution; exceptional agency and brand placement.
AJK MCRC, Jamia Millia Islamia	New Delhi	BA / MA Mass Communication / Journalism — India's most respected media programme; strong print, broadcast, and digital journalism placement.
Symbiosis Institute of Media and Communication (SIMC)	Pune	BA / MA Mass Communication — strong industry-connected curriculum with advertising, PR, and journalism placement.
Lady Shri Ram College (DU) / Miranda House (DU)	New Delhi	BA Journalism and Mass Communication — prestigious DU colleges with excellent journalism academic culture and media career placement.

8. YOUR NEXT STEPS

To receive a personalised and detailed career roadmap tailored specifically to your goals, strengths, and preferences, we recommend booking a one-on-one counselling session with our expert team.

During this session, we will guide you on:

- Detailed education roadmap planning
- Stream and subject selection clarity
- Best-fit colleges in India or abroad based on your profile
- Financial planning and scholarship opportunities
- Complete admission support for colleges in India and abroad
- Application guidance, SOP support, and interview preparation

Connect with MentorMe Career Intelligence & Training Pvt. Ltd. to take the next confident step in your academic and professional journey.

9. OUR GLOBAL UNIVERSITY NETWORKS

MentorMe provides structured university admission support across India and internationally.

Countries We Support for University Admissions

ASIA: India | Singapore | Japan | Malaysia | Vietnam | China | South Korea

EUROPE: UK | Austria | France | Germany | Ireland | Finland | Hungary | Netherlands | Switzerland | Spain | Denmark | Lithuania | Poland | Malta | Belgium | Monaco | Cyprus

NORTH AMERICA: USA | Canada

Additional Study Destinations: Dubai | Russia | New Zealand | Australia

Region	Network Reach
India	100+ Universities
Worldwide	1500+ Universities

10. DISCLAIMER & CLOSING

Disclaimer

This Career Assessment Report has been prepared by MentorMe Career Intelligence & Training Pvt. Ltd. based on psychometric assessment results provided at the time of evaluation. The report is intended for educational and career planning purposes only. Career outcomes depend on a range of personal, academic, and environmental factors that cannot be fully captured by any single assessment. MentorMe does not guarantee specific career or academic outcomes. This report should be used as one of several inputs in a student's overall career planning process. Students and parents are encouraged to consult with qualified career counsellors, educators, and professionals before making final decisions.
