DESIGNING YOUR VALUE PROPOSITION

Understand your customers deeply. Design solutions that truly **solve their problems** and **create real value**.

“ The better you understand your customer, the **stronger** your value proposition. ”

THE 6 ELEMENTS OF THE VALUE PROPOSITION CANVAS

	CUSTOMER JOBS What are they trying to do?	What tasks or goals are your customers trying to accomplish in their work or life?
	PAINS What's frustrating them?	What problems, difficulties or challenges do they face? What causes them stress?
	GAINS What do they hope to achieve?	What outcomes or benefits are they looking for? What would make them happy?
	PRODUCTS & SERVICES What do you offer?	What products or services do you provide to help them get the job done?
	PAIN RELIEVERS How do you solve their pains?	How do your products or services eliminate or reduce their frustrations?
	GAIN CREATORS How do you create extra value?	How do you help them achieve better results, save time, or get more of what they want?

REMEMBER

Great businesses solve real customer problems better than anyone else.

FOCUS ON OUTCOMES

Customers don't buy products. They buy **better outcomes**.

TALK TO REAL PEOPLE.
NOT JUST ASSUMPTIONS.

ACTIVITY

Interview one classmate or a potential customer using these questions.

- 1 What are you trying to accomplish?
- 2 What challenges do you face?
- 3 What would be the ideal solution?

Listen more. Talk less. Take notes.
